Electronic Publishing:

New Modes of Publication

Simon Mahony

This document is part of a collection of OERs focusing on Electronic Publication. For full details of this and the other resources see the header document: http://humbox.ac.uk/3078/

Wikipedia

Wikipedia (see also Alan Liu Student Wikipedia Use Policy – Google it)

Find an article on Wikipedia related to your project (or another interest);

open an account (by group or individual – probably best by group)

- check history

- make an edit on that page

- check 'watch this page'

- look at the 'discussion' about that page

- check 'my watchlist' for other edits.

Monitor over the week and see what happens to your edits. We will revisit this at the next session.
