Computing for Historians - Exercise 6

THE UNIVERSITY OF
WARWICK

- Open a new blank document in Word. Give it the title 'Computing for Historians' and type the following text:-
  This is an exercise on importing images and charts into a word document.

- Next, import and resize a chart saved in your H:Drive folder from exercise 5.

- Also import the image 'workers.jpg' from your H:Drive folder into the same word document. Again, resize, ensuring that both the chart and image appear neatly and correctly labelled, on one page.

- Save the finished document to your H:Drive folder, and compare with the demonstration at the end of the presentation for Section 6.
